LIVE Bespoke Course Webinar for Medical Professionals

In association with

Kernow Health

LIVE 'Hot Topics' Urgent Care Course Webinar

Catch up on demand now!
(Originally aired on Thursday 31st March 2022)

NB Medical is delighted to be working with Kernow Health to provide you with the opportunity to catch up on their Hot Topics Urgent Care course webinar which originally aired on Thursday 31st March 2022. Experience all of the same topics and resources as if you were attending a face to face course, but from the comfort of your own home.

Due to COVID-19 we have had to adapt to changes in how we work and how we learn. Therefore we are delighted to be presenting you with the Hot Topics Urgent Care online learning experience, where you can view the same presentations as you would on a face to face course from the comfort of your own home or surgery.

You will also be presented with a certificate of completion awarding 6 CPD points on completing this course.

COURSE INFORMATION

OVERVIEW

The “Hot Topics” course consists of a series of short ‘TED-style’ engaging presentations blending evidence and cases, followed by discussion which may have an impact on your practice. The course comes with a number of extra resources to give it incredible ‘added value’

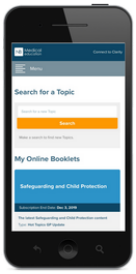
COURSE REFERENCE BOOK

Your course reference book will be posted to your address. The book is fully referenced with recent summaries of the evidence for approximately 150 clinical Hot Topics commonly seen in primary care. Most of our delegates use this every day, like they use the BNF. All of the material is up to date and the material is completely 100% independent from any external influence.

ONLINE CONTENT

12 months access to the on-line electronic version of the book which is instantly searchable. All the original references and resources for GPs (e.g. links to on-line clinical calculators) and patients (e.g. patient information leaflets) are hyperlinked and just one click away.

NB MEDICAL APP



The NB Medical App giving you access to the content from your course day in a fully searchable mobile friendly format on both iOS and Android devices.

UPGRADE TO INCLUDE NB PLUS

You can upgrade your order to include NB PLUS

NB PLUS includes:-

- All current NB Medical Course Webinars
- PLUS NB Learning CPD Modules
- PLUS Safeguarding and Child Protection Update
