

Clinical Examination of the Chest

19th July 2021 1:00-2:45pm

Education provided by LR Respiratory Training & Consultancy
For Kernow Health Training Hub

Audience: This standalone webinar is aimed at healthcare professionals that are both new to listening to chests or those experienced and wanting an update.

This webinar will give a basic overview of:

- Recap on anatomy & physiology
- Taking a structured clinical history
- Approach to chest examination
- Inspection, palpation, percussion, auscultation
- Identifying breath sounds
- Red flags and other tests
- Video case studies (chest sounds)

Throughout the webinar you will be able to contribute and ask questions using the 'chat feature'.

The webinar will be hosted via Google Meet. The link will be sent out in advance of the meeting which will give you the opportunity to test the link to ensure it is not blocked by firewalls and to download anything necessary. You will need a good internet connection and a microphone and webcam ideally.

This meeting is kindly supported by Chiesi UK Ltd. Chiesi did not initiate the meeting and have had no input into the content, programme or organisation. At the start of the webinar, Chiesi will deliver a 10 minute presentation.
