

Diabetes Programme for 2022 Healthcare professionals, for KERNOW CIC

Whilst every effort will be taken to ensure the training runs on the dates advised, please be aware there may on occasion be the need to adjust delivery dates. Should this be the case, delegates will be advised of the change of dates in advance.

The MERIT[™] Programme for **2022** has been developed by Novo Nordisk.

The aim of the programme is to support the development of skills and competency in the management of Type 2 Diabetes in the primary care setting in line with TREND competencies (https://diabetestimes.co.uk/wp-content/uploads/2019/03/Framework_5th_EDN_TREND.pdf).

What is the MERIT[™] programme?

MERIT[™] (Meeting Educational Requirements Improving Treatment) is a two-part flexible class-room based education programme developed by Novo Nordisk. MERIT[™] is a competency-based programme and is for all healthcare professionals involved in diabetes care.

The programme will combine the theory required to support diabetes management followed by the provision of tailored clinical support from specialist diabetes teams. It is recommended that all healthcare colleagues attend together to maximise learning opportunities back in practice.

How to book a place

The programme consists of 3 modules (split into 2 sessions per module) which can be accessed individually or as a whole programme throughout the year. Bookings can be made directly with the programme co-ordinator (details on page 2) on receipt of this flyer to guarantee a place early.

Venues and timings for courses

All courses will take place at **Virtually Via TEAMS** unless otherwise stated. **Half day courses will start at 9.30am and finish at 12 noon unless otherwise indicated.**

Please see the module information overleaf for more detailed information

This programme has been accredited by the RCN Centre for Professional Accreditation

Accreditation applies only to the educational content of the programme and does not apply to any product.

MERIT™ was developed and funded by Novo Nordisk

Pre-insulin Treatment and Management of people with Type 2 Diabetes

5th July Part 1
12th July Part 2

This module provides an overview of diabetes therapy prior to insulin treatment and is suitable for all healthcare professionals involved in the management of diabetes who require updating with the latest guidelines and therapies

5 CPD Points

Insulin Management for people with Type 2 Diabetes

20th September Part 1
27th September Part 2

This module follows on from the first day or can be run as a stand-alone day and the aims are to revise insulin therapy and to address the challenges of managing people with type 2 diabetes on insulin therapy.

5 CPD Points

Insulin Initiation for people with Type 2 Diabetes

11th October Part 1
18th October Part 2

This module is for healthcare professionals who are planning to include insulin initiation for people with type 2 diabetes as part of their clinical role, or for those who already initiate insulin but feel that they need basic revision.

5 CPD Points
