

Your nasal flu vaccine

What will happen when our nurses visit your school ...

1

We need to have vaccines to stop us getting poorly.

2

Our nurses bring the vaccines to school in a cool bag to keep them at the right temperature.

3

The nurse will get the vaccine ready in a tray. The vaccine medicine is kept inside a syringe.

Your nasal flu vaccine

What will happen when our nurses visit your school ...

4

You will be brought to see the nurse and they will explain what is going to happen.

5

The nurses will clean their hands using this gel.

6

The medicine will go into your nose. It feels like a fine mist of water. The nurse will give you a tissue afterwards.

7

The nurse will put the used syringe into this yellow bin.
